

Over the past fifteen years, the number of At-Risk students in Colorado schools has increased by over 124,000 students. Up from 161,220 students in 1995-96 to 285,343 in 2010-11.

Note: In Colorado, only free-lunch students are included in the At-Risk total, reduced-lunch students are not included or funded in the At-Risk total.
